With the kind support of

Specialist Counselling Centre for
Sexually Abused Girls and Young Women

Information for adults

ABOUT US

Our specialist counselling centre has been active as a sponsor for the independent youth welfare since 1989.

We work according to the principles of holism, removal of taboos, partiality for girls and young women. Protection against renewed traumatization is an important concern for us.

Our services are aimed at affected girls and young women between 3 and 25 years of age and their supportive caregivers, professionals from school, educational and therapeutic institutions as well as interested parties, regardless of their ethnic, cultural, religious and social affiliation.

Our counselling is free of charge and anonymous upon request. The counselling centre ensures that confidentiality is observed, taking into account the legal provisions.

Our multi-professional team includes women with educational, psychological, psychotherapeutic and trauma-specific training.

DONATIONS

Violetta e.V. is recognized as a non-profit organization. Donations are tax-deductible and directly benefit those affected.
